

Networking options and synergies

- Sina Gasde, German Energy Agency

Sucess factors

Networking options and synergies

- Networking and exchange of experience as one of the key success factors for energy communities
- Advantages:
 - Utilising synergies in the provision of information, advice and services
 - Pooling of resources
 - Becoming a strong and manageable voice in political decision-making processes
 - Addressing funding options
- Development of a nationwide network/association of energy communities in Moldova is recommended

28 Energy communities in Moldova, 22nd and 23rd April 2024, Chişinău

Networking options and synergies

EU provides important orientation and guidance on establishing energy communities for Moldova as a candidate country

- Regulatory framework and legal requirements
- Networking opportunities
- Capacity building and source of information
- Source for funding

29 Energy communities in Moldova, 22nd and 23rd April 2024, Chişinău
